

Statement on Artsakh and Armenia
Christian Conservative Party
Norway

On behalf of the Christian Conservative Party of Norway I wish to state my strong support for the Armenian Christians and the Armenian and civil population in Artsakh.

The military aggression against civilians in Artsakh by Azerbaijan and Turkey must be condemned by the international community. These actions revive the painful memory of the Armenian Genocide perpetrated by the Ottoman Empire and the Young Turks organization in 1915. We call upon the parties to find a negotiated solution, and the international community to ensure the safety of the population.

We pray that the ceasefire agreement between Armenia/Artsakh and Azerbaijan implemented October 10th will hold, and that the re-initiated talks between Armenia and Azerbaijan will bring a peaceful resolution.

The Christian Conservative Party of Norway request the UN Security Council to monitor the process, and make sure that the civilian population is not being subject to further atrocities and suffering.

We call upon the Government of Norway to supply Armenia and Artsakh with any needed emergency supplies, furthermore support Armenia and Artsakh diplomatically to ensure the safety and security of the Christian community in the region.

Oslo October 15th 2020

Erik Selle
Party Leader
